

This is an unprecedented crisis we all find ourselves in and only through patience and cooperation we will overcome Covid-19. As always the safety of our customers, supply chain, and staff are paramount and as the situation evolves at the federal, provincial and municipal levels, so too will our policies and responses so please check back often to our homepage for any updates:

MARCH 20 UPDATE:

TO OUR CUSTOMERS - OUR SHOWROOMS ARE CLOSED TO THE PUBLIC BUT SHIPMENTS ARE PROCESSING AS NORMAL. ALL QUERIES ARE TO BE DIRECTED TO YOUR DIRECT SALES REPRESENTATIVE.

On March 17 Alberta declared a Public Health State of Emergency, and on March 18 Saskatchewan has declared a Provincial State of Emergency, and effective March 20 our retail locations in both provinces are available by appointment only. If you do have an appointment we ask you keep the appointed time to avoid scheduling conflicts with other customers as we are sanitizing all locations and taking precautions with each customer to limit contact and virus spread.

To all our customers please be advised that we are taking precautions with our shipments and transport to ensure we limit possible transmission through any products received by our warehouse directly. We have sanitizing schedules and protocols for employees to stop any internal spread and are confident that our valued suppliers will keep their commitments to ensuring a secure supply chain from manufacturing point to end user.
